Dear Parent/Carer

The children will be visiting Kensington Library on 30th April. I will be talking to them and explaining what they can find in their local library, how it all works, how to join the library and share a story with them.

Some of the children will be library members. Even if they are they might have lost their library cards, however before the Easter break we provided all those children with a new card if they completed a registration form. Using the library and borrowing books is a fantastic, free way for children to build on their literacy skills and find out information.

I look forward to meeting the children.

Yours sincerely

Irene Mandelkow
