Year 4 Multiplication Tables Check

Dear Parents and carers,

As we reported to you in the Autumn term, your child will be completing a statutory Multiplication Tables Check (MTC) next term. This check is implemented by the Department for Education and is in place to support your child and their learning. During the check, pupils are asked 25 multiplication questions from the 2 to 12 times tables. They have 6 seconds to answer each question, with a 3-second break between each.

These will begin on **Monday 2nd June 2025**. There is a two-week window within which all children in year 4 will complete the check.

With this in mind, we would like to take this opportunity to remind you to encourage your child to practise their times tables in order to help them reach their full potential in the check. They may do so through their TT Rockstars account and using the game accessed by scanning QR code below.

This game is a close representation of the actual check. Your child accesses this game 3-5 times a week in school, so is familiar with it. The more your child plays this game, the more confident they will be when it comes to completing the check.

Thank you for your on-going support,

Mr Paton
Maths Lead
